HS39NXB	BLACK	50.50

OKAY'S KEY CHAIN

Suspended from Okay's Key Safe, from the belt into the pocket.

The only known way of carrying keys that combines security, neatness of appearance and low cost.

Versatile, easy-to-use, with no bulk to weigh you down.
 Chrome Finish.

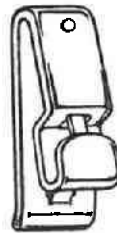

HS49-NX	8"	37.60/doz	12 pc. per card.
HS65-N	18"	39.20/doz	

OKAY'S KEY SAFE

For Beltless Slacks

The model 37 now supplies the demand brought about by beltless slacks and trousers. It is worn on the waist band and the gripper tooth will grip the inside of the waist band and cannot slip up and loose off the trousers.

For belts 1/2"-4" wide.

12 pc. per card.

HYDROSORBENT DEHUMIDIFIERS
 Prevent Moisture Damage Within Safes

C

HYDROSORBENT SILICA GEL

The desiccant chosen most by government and industry since World War II, silica gel drinks up excess humidity in the air, and prevents condensation, rust, mildew, corrosion and spoilage within safes and other enclosed areas. Providing a protective shield of dry air, it works like a dehumidifier that requires no electricity.

Non-toxic and safe to use, if remains dry to the touch even when saturated.

Each unit comes with a built-in indicator which turns from blue to pink when the silica gel crystals become saturated with absorbed moisture. Once saturated, silica gel can be reactivated and made reusable perpetually by heating the unit in an ordinary oven.

40 GRAM SILICA GEL

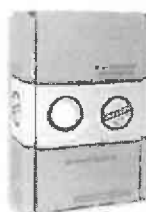

Compact 4" x 2" x 1/2" aluminum canister. Ideal for gun, camera cases, tool box, silver drawers, etc. Protects 3 cubic feet.
