Ditto+ Line

- AN "ORIGINAL" ALTERNATIVE
- DITTO+ key blanks are made with the finest quality, solid brass available.
 - DITTO+ key blanks are the same design as the originals.
 - DITTO+ key blanks are milled to exact original specifications and tolerances.

PersonaLine

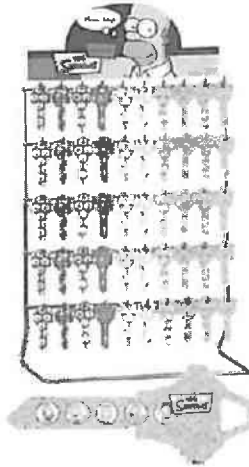

- Hundreds of the most popular standard bow key blanks to fit your every need.
- Includes GM, Ford and Chrysler cars.
- For a small added charge, you may have your name and phone number stamped on your key blanks.
- Your own personal identification will create repeat sales.

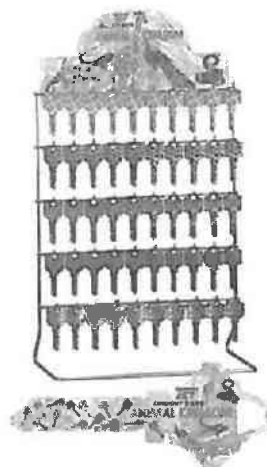

JET Groovy keys Designed to Sell

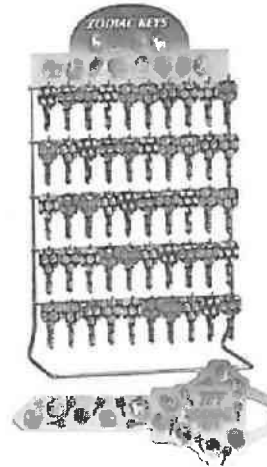

JET Groovy Key Assortments come with colorful display racks that are designed to sell. With their small footprint they won't take up much counter space but will catch your customers' eye. Place these near your checkout or key cutting center and watch those impulse purchases add up to increased profits.

World Class Precision and Quality

Precision key blanks made of nickel silver have superior physical and mechanical properties with high tensile strength. This type of key blank has a stronger resistance to corrosion and wear, and presents an attractive appearance with its fine silver polish..

Jet's Silver Line meets the accuracy requirements for both master keying and duplication. For the master locksmith who originates new systems or maintains existing systems, using either accurate wheel type cutters or the new punches, all keys will be perfect every time.

The Silver Line key bows are coined, embossed and designed to create the appearance of the originals. They are polished to a fine finish using a special new process. Look for our black, gold and silver key blank box... it's your guarantee of the finest nickel silver key blanks available today.

JET Transponder Technology

Smart Clone CLONES THE UNCLONABLE

With the new JET "Smart Clone" with Crypto Update (SCLONE-CRPT), you can now clone ALL T.I. Crypto transponder keys as well as ALL Fixed Code transponder keys in your shop. Vehicles not required. Older Smart Clones can be upgraded by ordering the Crypto Update (CRYPTO-SW). Keys are also available in assortments: CRB-A (1 ea. of Crypto blades & 3 SCH-3 heads) & SCB-A (1 ea. of all Smart Clone blades & 2 SCH-1 & 3 SCH-3 heads). SC Console software is included, which allows additional functions including manual writing/generation of codes for fixed code transponder keys & customer archiving.

SMART CLONE TRANSPONDER KEY BLANKS

Unique two piece design... The blade of the SMART CLONE Transponder Key separates from the electronic key head so it can be easily replaced in case of damage or miscut.
