## SECURITY ASSET MANAGER

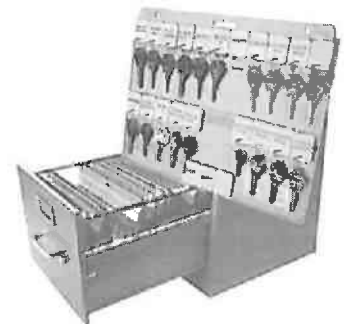

Keys and other assets are stored in our electronically-sealed cabinets. These cabinets can only be opened using valid access codes and compatible reader and scanner devices. A security administrator, for example, can program who gets access to which keys, and for what period of time, based on that individual's need or authorization level.

## VEL-KEY FILE

Sturdy, beige plastic panel that eliminates messy, disorganized keys. Use in a desk, file cabinet, briefcase, or 3-ring binder. Makes an ideal back-up system for duplicate keys. Can be wall-mounted with an optional kit.

Contains 22 tags.
