Door Thickness: Adjustable for doors 1-3/8" to 2". Can be supplied for doors over 2" to 2-1/4", by using special roses or for doors under 1-3/8" to 1-1/4" by adding a special spacer ring. These roses and rings are limited to certain designs. **See Knob and Rose Components** (page 26.)

Case: 2-1/16" diameter. All functions furnished in one standard size lock case.

Latchbolt: Standard; 1/2" throw, deadlocking or plain 5/8" and 3/4" throw, deadlocking or plain, to order. All latch units are interchangeable. **See Latches** (pgs. 22 and 23).

Strike: Standard; 1-1/4" curved lip, wrought box supplied. 1" 1-1/2", 1-3/4" and 2" curved lips to order, wrought box supplied. For other strikes, **see Strikes** (pgs. 24 and 25).

Backset: Standard 2-3/4". To order, 3-3/4". Extension links for 5", 6", 7", 8", 18", and 19" and up to 42" backset, to order (see page 23).

Front: Standard, Bevel 1/8" in 2". Flat front, to order. NOTE: Latch front must be flush with door edge (see page 22).

Reversibility: For either right or left-hand doors swinging in or out.

Installation: Uniform, regardless of function or trim style. The latch unit requires a 1" hole in edge of door and the lockset requires a 2-1/8" hole through the door.

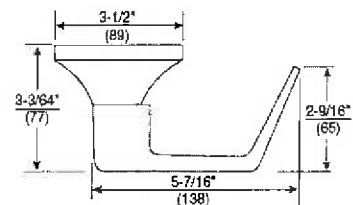

Screws for front: Phillips, flat head No. 8-8-32 3/4". For both wood and metal doors. Screws for strikes: Regularly supplied: Phillips, flat head No. 8-8-32 3/4" (except, 497, 497B, and 499 require Phillips flat head No. 12-12-24 1").

DOUBLE CYLINDER

YA314 1/4 626	Satin Chrome	240.00
YA314 1/4 605	Bright Brass	240.00

Application: Mortise Installation. For 1-3/8" or 1-3/4" doors, unless otherwise specified, 3" maximum for thumbturn lock functions. 2-3/4" backset.

Hand: Universal. Adjustable lock front to accommodate bevelled or flat edge doors.
Deadbolt: 1" throw, 1-1/4" high x 1/2" thick. Two hardened steel free rotating pins make sawing through bolt virtually impossible. Resists pressure when thrown.

Armor Front: Prevents tampering with cylinder set screw(s).

Case: Heavy wrought steel, zinc plated and dichromated.

Armored Front: brass, bronze or stainless steel.

Bolt: bronze.

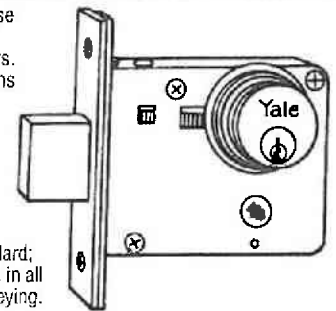

Cylinder: brass

Thumbturn: brass, bronze or stainless steel.

Keying and Cylinders: R8E1R(5 pin) keys standard; No.1153 cylinder, 5 pin standard; (6 pin, 7 pin, removable core and bicentric with R:1 (6 pin) and R:117 (7 pin) keys in all surely sections available to special to order, see chart). Available KD thru GGMK keying.

Strike: No. 30S standard, 3-1/2" x 1-1/8", ANSI A115.5.

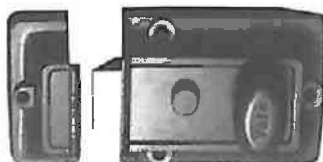

Wrought Box: No. 31S, wrought stainless steel, natural finish. Furnished to special order.

EXIT DEVICES

2100 SERIES

The 2100/2100F is a rim exit device to be used with single doors or pairs of doors constructed of metal, wood or composite materials. The 2100/2100F can be paired with a wide variety of trims to meet many applications.

- Designed for wide doors
- Non-handed for easy installation
- Deadlocking Pullman latchbolt positively engages roller strike
- Steel interlock "E" bracket maintains door-to-mullion relationship in fire-labeled devices

7150 SERIES - Squarebolt®

Just as easy to open as traditional latchbolts, the Squarebolt® exit device's unique construction offers innovative protection. Its patented *Squarebolt* (Pat. no. 5,605,362) design presents an improved physical barrier over standard rim latchbolts. The *Squarebolt* exit device locks into place and stays there. Credit cards, crowbars, door rattling and shaking are resisted, significantly reducing the threat of unauthorized entry.

- Patented Squarebolt security deadbolt designed for maximum holding power
- Non-handed for easy installation
- Can be retrofitted onto existing 7100 Series templated doors
- Fully adjustable surface-mounted 3/8" diameter roller strike complete with positive locking plate and shims
- Available in double cylinder function
